Skills you would bring to the MAEOE board:

Hard work and dedication. Understanding the complexities that face formal educators when trying to implement new initiatives in their schools. Prior board experience with Pingree Farms, and my business background helps with physical responsibility. Creative problem solver, I like to believe there is nothing we cannot do.

*Promoting environmental literacy through education*

Please describe any past experience you have as a MAEOE volunteer, or serving on another board, or in a leadership position.

I have served as a director at large for the last year filling a vacancy on the board. I also serve on the membership, education, climate committees.

Why do you want to serve on the MAEOE board?

I believe that MAEOE is ready to be the go to resource for environmental education. It is imperative that we help engage as many people as possible to be environmental stewards education and climate change warriors. The only way this can be accomplished is through great resources for educators and providing communities aware of opportunities for engagement.

In your opinion, what should be MAEOE's top priority in the coming year?

Working with Subject to Climate to get the Climate hub up and running. Streamline information sharing between various groups and build programming that can be delivered to groups that are unable to get to a resource site.

Please list 2 professional references, their titles and their phone number. One MAEOE past or present board member is encouraged, in addition to a MAEOE member, coworker or volunteer that has worked with you as part of a group project or team.
