

A TEACHERS' TOOLKIT FOR TACKLING CLIMATE CHANGE EDUCATION: WORKSHOPS FOR EDUCATORS

Four distinct and complementary day long workshops including expert speakers, engaging activities and training in best practice climate education strategies and resources.

Register today at maeoe.com

SCIENCE & SOCIAL CONTEXT OF CLIMATE CHANGE JUNE 24TH - HASLETT MIDDLE SCHOOL, HASLETT

Learn what scientific research tells us about the causes, extent, and consequences of climate change, including Michigan impacts seen by our State Climatologist. Participate in activities investigating the evidence and explore resources you will get to take home. Learn from the research that explains societal perceptions, social disparities and impacts on human health. It's climate change 101!

TEACHING STRATEGIES & RESOURCES - PART 1 JUNE 25TH - NOKOMIS LEARNING CENTER, OKEMOS

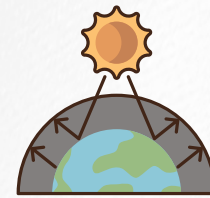

Receive materials and extensive training in the new Michigan Environmental Education Curriculum Support (MEECS) Climate Change units from EGLE. Also participate in climate education activities from Project Learning Tree, Project WILD, and interdisciplinary lessons developed under a Cee-Change Fellowship from NAAEE. Native American perspective on climate change will be shared with ideas for place-based applications.

TEACHING STRATEGIES & RESOURCES - PART 2 JULY 24TH - KEN-O-SHA PARK ELEMENTARY SCHOOL, GRAND RAPIDS

Project WET's Climate, Water, and Resilience book and online resources will be included in an extensive training of its activities. This will be followed by a variety of teaching activities and resources from diverse sources, including an update on Michigan's Climate Change Education Hub and NAAEE's Educating for Climate Action and Justice: Guidelines for Excellence. Explore models of how to incorporate climate education into your curriculum or education programs.

CLIMATE CHANGE & STORIES OF HOPE JULY 25TH - KEN-O-SHA PARK ELEMENTARY SCHOOL, GRAND RAPIDS

You will hear about the positive strides in public support for climate change education in the United States and Michigan and participate in activities focused on mitigation, adaptation and solutions. Learn about the MI Healthy Climate Plan and how you can lead your students to civic engagement with experts from Take Action Global and Michigan Climate Action Network. Share ideas and resources, network, and find support for your climate education goals.
